# INTRODUCTION

---

The present volume constitutes the 1926 edition of the Crocker-Langley Directory of San Francisco. The work embodies a complete epitome of the civic, commercial, social and industrial interests and activities of the municipality. It is a modern Directory in all its parts and includes all of the essential features which have been proven so satisfactory to our patrons in previous issues; these have been retained and amplified, and improvements have been added as suggested by experience in order to add to the value and usefulness of the Directory, thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The publication has had the benefit and advantage of the complete organization and resources of the publishers, and of the skill and experience of their corps of enumerators and compilers added to the courteous co-operation of citizens, in the production of the volume.

The several departments of the Directory are arranged in the following order:

THE DEPARTMENT OF MISCELLANEOUS INFORMATION is included in pages 11 to 35, and contains data concerning State, City and County Governments, Federal Government officers in the city, the courts, commercial organizations, art societies, cemeteries, crematories, churches (denominational and miscellaneous), colleges and private schools, exchanges, courts, hospitals, homes and asylums, building exchange and asociations, institutes and societies, labor unions, libraries, military and naval organizations, public schools, secret societies, etc.

THE STREET AND AVENUE GUIDE is embraced in pages 36 to 64; in this feature the names of all streets and avenues are arranged alphabetically, giving beginning and ending and line of general direction. In the case of the most important streets and avenues, intersecting streets and avenues are shown with the number at the cross streets or avenues indicated.

THE BUYERS' GUIDE occupies pages 65 to 216; this section of the Directory, printed on tinted paper, includes numerous advertisements of the leading manufacturing, business and professional interests of San Francisco. They have been carefully grouped by departments and are indexed under classified headings and otherwise in various parts of the Directory. A casual perusal of these advertisements will picture many interesting phases of the city's activities. They are not display advertisements, primarily, however, but rather are reference advertising at its best. In a bustling, manufacturing city like San Francisco the need for this kind of information readily at hand is very great, and the general appreciation of this need is evidenced by the liberal patronage the city Directory enjoys in many and varied lines of trade.

THE ALPHABETICAL LIST OF NAMES of citizens, business firms and corporations covers pages 217 to 2216.

THE CLASSIFIED BUSINESS DIRECTORY occupies pages 2217 to 2483, and exhibits the various manufacturing, mercantile and professional names, compiled under headings appropriate to the class of industry or prefession followed.

## THE SAN FRANCISCO CHAMBER OF COMMERCE

The San Francisco Chamber of Commerce stands today, not as a new organization, not as the successor of old ones, not founded upon wreckage, not the result of spasmodic and intermittent organization, but as a consistent and potential civic factor, dating back to its founding, it has kept pace with the times; it is an old and honorable body, and has pride in its heritage, as well as in its vision of future possibilities. It is essentially democratic—as any civic and commercial organization must be. It has wisely and constantly widened its horizon, and has been helpful in every phase and factor in city life. It has cultivated every outlying nook and corner of the municipal corporation, that it might be known of all citizens that the Chamber of Commerce existed for the general good. It has maintained that hospitality and courtesy, in an organized and distinct fashion, that are community assets. It has developed service. The function of the Chamber of Commerce is this: To promote the Welfare of San Francisco. It inclines to the theory that people who are brought to sober thought, and who are wisely led, and whose public conscience is quickened, will make a better citizenship. The Chamber of Commerce is a public forum. It is a clearing-house. It is a business organization, a civic body, and a social club. It seeks to put into men the very last thought and zeal and motive, that the outcome may represent the sum total of achievement. It seeks to be a leader only in that it masses the groups of individual leaders, and may perhaps make cumulative the value and strength of their leadership.

## DIRECTORY LIBRARY

Copies of the latest editions of directories of other cities throughout the United States and Canada are on file in the office of the publishers. Rooms 702-705, at 604 Mission Street, where they are accessible for reference. A cordial invitation is extended to all subscribers to make frequent use of this library.

## MUNICIPAL PUBLICITY
## ADVERTISING SAN FRANCISCO

An important function of the Directory is to set forth the characteristics and advantages of the city as a place of residence, as a business location, as an industrial site, and as an educational center. The Directory acts as a mirror, reflecting all that is noteworthy in the city in the above respects. In order to spread this information regarding the city broadcast over the country, the publishers place copies of this issue of the Directory in directory libraries, which are maintained in all the larger cities of the country, where they are readily available for reference use by the public. There they serve as perpetual advertisements of San Francisco, for business men the country over realize that the City Directory represents the community as it really is.

The publishers take this opportunity of thanking the citizens for valuable assistance rendered in the way of furnishing information concerning themselves, their friends and their business interests for this Directory, and also the public-spirited and progressive business and professional men for support given in the way of patronage.

## UNITED ANCIENT ORDER OF DRUIDS

The order is perhaps the oldest. History speaks of it as an Order of Priests and learned men among the ancient Celts—the race of people who left the parent hive in Asia at a very early period and settled in Western Europe. For many centuries preceding the Christian era and at the time of the invasion of the Romans, the Druids was the most prominent and powerful order; they presided over the religious celebrations and were the judges, legislators, philosophers, physicians and instructors of their people. The order first assumed its present charter in England in the year 1771, and was introduced into America in the year 1830. It is a moral, social and beneficial society. Its principles and teachings are derived from ancient Druidism and are founded on reason and sound morality; they do not conflict with any religious system and are perfectly compatible with the laws of any civilized country. In becoming Druids, members are still free men. It is a secret society simply for the protection against abuse of its beneficial provisions. The order is firmly established in all countries inhabited by the Caucasian race, and is the only order that has an International Grand Lodge which meets in quinvuennial session. Its objects are: To united men (irrespective of nation, tongue or creed) for mutual protection, to cultivate social virtues, to encourage in business, to assist in obtaining employment, to foster among its members the spirit of fraternity and good fellowship, and by a well-regulated system of dues, provide for the relief of sick and destitute members, the burial of the dead and the protection of widows and orphans

# STREET AND AVENUE GUIDE

## OF THE

# CITY AND COUNTY OF SAN FRANCISCO

### COMPILED FROM OFFICIAL SOURCES

### EXPLANATIONS

According to the method adopted in this city for numbering buildings, Market Street is the starting point for numbers on all streets running from it in a northerly, southerly or westerly direction, and the water front for all streets running therefrom in a westerly or southwesterly direction. The numbers on all streets not commencing at Market Street or the water front run in conformity with the numbers of the main streets running parallel with them, except in the case of a few streets which are numbered in an irregular manner.

On all streets between the water front and Central Avenue the even numbers are on the right-hand side, and the odd numbers on the left, starting from the point of beginning. Beyond Central Avenue most of the streets have been numbered in a contrary manner. One hundred numbers, or as many thereof as are necessary, are allotted to each block bounded by main streets; for instance, Montgomery Street commences at Market, and the main streets crossing as you proceed north are Sutter, Bush, Pine, etc. Therefore any numbers between 1 and 100 will be found on the right or left-hand side of the street between Market and Sutter, between 100 and 200 from Sutter to Bush, between 200 and 300 from Bush to Pine.

In the streets which are numbered, a dash (——) indicates that the cross street does not extend to that side; (o), the street borders on the bay, or public park, cemetery, etc., consequently there are no buildings on blocks thus designated; (c), the street is not opened through the block, or is interrupted in its course at that point by a public square, cemetery, etc.; (e), end of street.

## SCHOOLS AND COLLEGES

## The Cedars

A School for the
Different Child

The child who is different in mental and physical characteristics from the strong-minded, healthy-bodied boy or girl requires an altogether different type of training, play, exercise, and teaching.

No matter how ideal the home conditions may be, they cannot afford the child the one thing necessary—happy association and play with other children **of the same mental age**, under the supervision of some one who understands and loves him and brings to his service a fine professional knowledge.

Many years observation of these different children while training them, and later while training teachers for this work in the Public Schools of Philadelphia, have led Miss Cora C. Myers and Miss Gabrielle H. Renshaw to open **The Cedars**, a home and school for nervous and retarded children, at Ross, Marin County, California.

Miss Myers is a graduate of the widely known Vineland Training School.

**The Telephone Number is**
**San Anselmo 536**

This beautiful home, with its acres of park and gardens is open to a limited number of children whose parents appreciate the importance of teaching by trained specialists. The most approved methods for the development and training of children unable to attend the regular schools are available.

Intimate home life, a cultured environment, companionship of children of the same mental age, make this the next best—in many respects—the better place than home.
Close co-operation with the physician in attendance is maintained.

Inquiries to Miss Myers will be confidential and will place the sender under no obligation whatever.
Those who are interested will be welcomed at the school any day between the hours of three and five.

The school may be reached by a 45 minute ride from San Francisco on the Sausalito ferry and Northwestern Pacific train.

NATIVE TEACHERS
DIRECT METHOD

**Some of the Many Reasons Why You Should Study Languages at**

**THE FERNAC SCHOOL:**

It uses the direct method.

It eliminates all translation, giving the pupil 60 full minutes of the language studied, not 20 or 30.

The languages are taught only by native teachers who understand how to present their subject in a clear and forcible way.

The pupil is taught to speak the language, not only to read and write it.

It stresses correct pronunciation.

### Figure What Road Vibration Costs!

GRUSS AIR SPRING

Take the motor out of your automobile. Put in on a solid foundation. Let it run.

You'll have no starter or generator trouble. You'll have no expensive repairs to make. You'll get years of service.

For it isn't the running, but the punishing vibration of the road that makes your upkeep high. And it is this unceasing road vibration that Gruss Air Springs absorb.

Figure what road vibration costs you. Then figure how much cheaper it would be to install Gruss Air Springs.
